Assignment 9 - Optimization A↓

Start Assignment

Due Monday by 3pm   **Points** 36   **Submitting** a file upload
Available until May 1 at 3pm

Optimizing a software service

You've developed a new software service. It will be accessible over the Internet, using accounts created by the users.

It will be hosted on a dedicated server network that you manage.

You are in a very competitive market.

Write a short description of all the things you will do to optimize your service.

Submit this assignment as a pdf file.
